

## Iteration 2

February 29, 2016 to March 14, 2016

# Iteration 2 - Planning

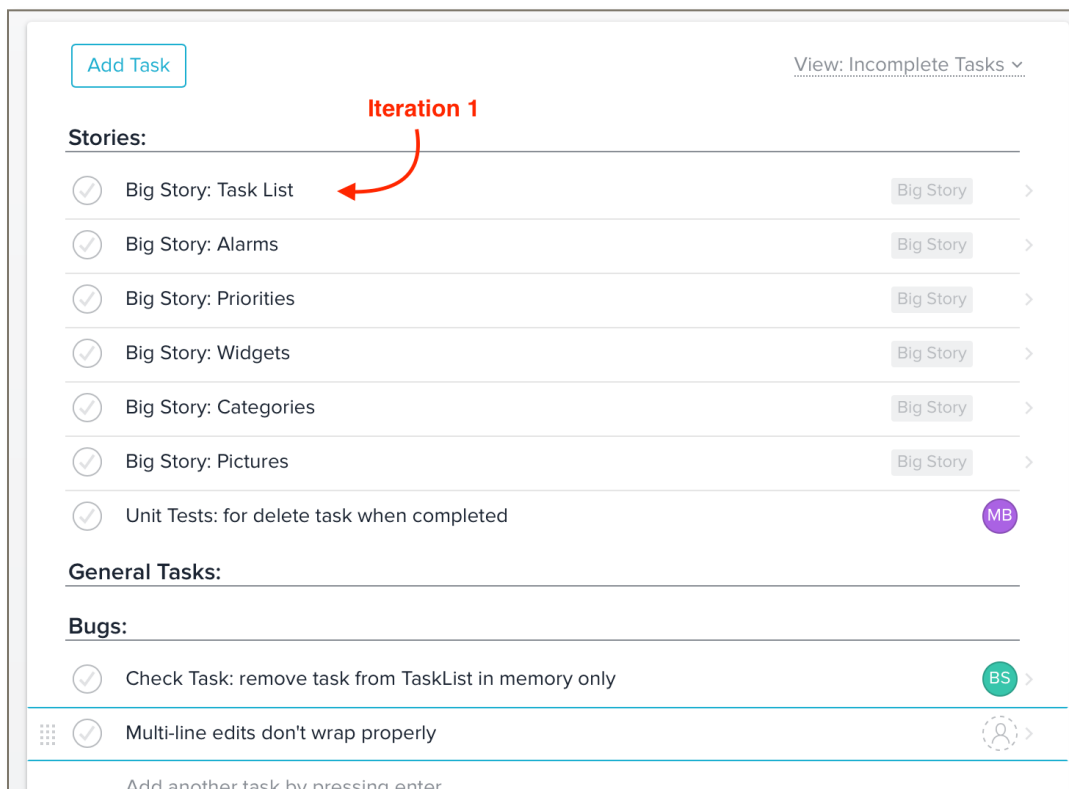

## Revision and Planning Phase

This document was missing from our previous Iteration 1.

I would like to outline the state of that revision before continuing with Iteration 2 planning in order to better justify our current revisions.

## Iteration 1 Review

Iteration 1 contained this Big User Story:

## The Story, Task List, was divided as such:

Android App > Stories ▾

✓

Big Story: Task List

As a user, I want to be able to list tasks in an app so that I can track my day.  
Priority: High  
Cost: 10 days

📄

✓

Delete Task

Feb 15

LD

Paul Jarrow created task. Jan 20

Paul Jarrow added to Android App. Jan 20

Paul Jarrow added to Big Story. Jan 20

Paul Jarrow changed the description. [Show Difference](#) Jan 22

This is the state of the tasks as it happened by the deadline of Iteration 1. Unfortunately, we weren't able to completely meet our goals for the first development iteration. Several bugs were found and some of them were completed in Iteration 2.

## Bugs found and/or resolved, as if approximately mid-Iteration 2:

🐛 Bugs:

✓

Add Task: remove checked items from viewing

✓

Check Task: remove task from TaskList in memory only

BS >

✓

Add Task: clicking outside of the editText fails to save

✓

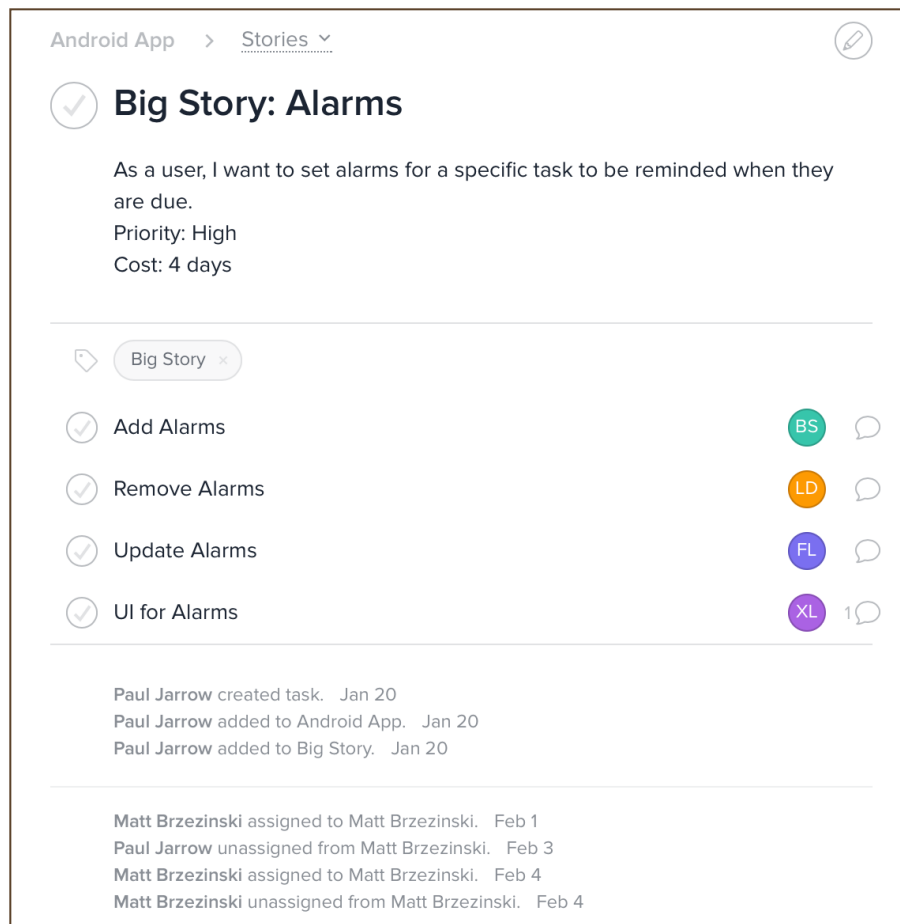

Multi-line edits don't wrap properly

>

## Iteration 2 - Planning

For this iteration, the intention is to:

1. Complete our remaining work for **Delete Task** under **Task List**
2. Complete our previous iteration bugs
3. Resolve any new bugs if possible
4. Take on the big user story **Alarms**

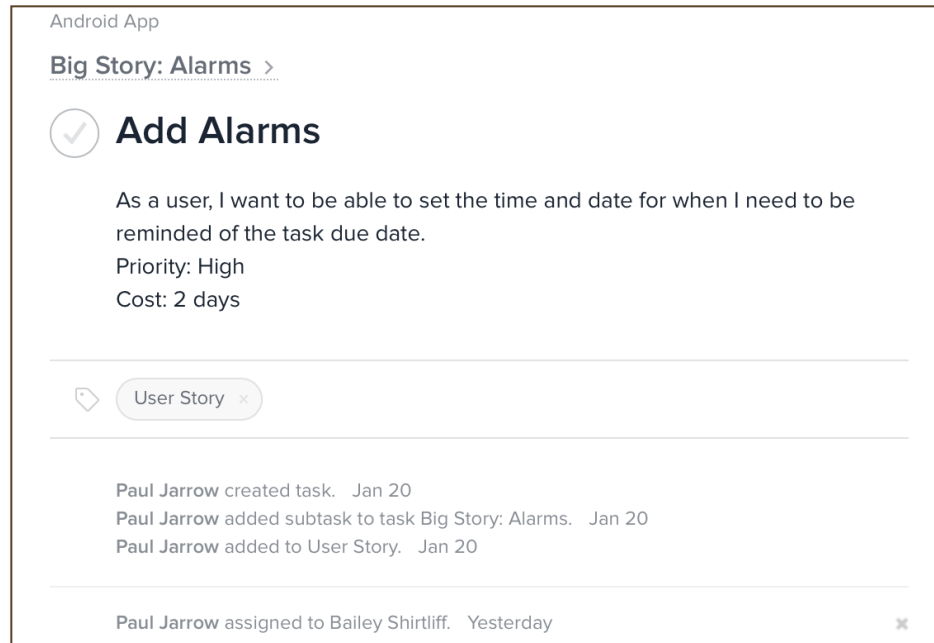

**As a user, I want to set alarms for a specific task to be reminded when they are due.**

**Priority: High**

**Cost: 4 days**

**These tasks are broken down as such:**

**As a user, I want to be able to set the time and date for when I need to be reminded of the task due date.**

**Priority: High**

**Cost: 2 days**

Android App

**Big Story: Alarms** >

 **Remove Alarms**

As a user, I want to be able to remove alarms so that I don't have to be reminded of tasks that no longer have a due date/time.

Priority: High  
Cost: 1 day

## Big Story: Alarms >

### UI for Alarms

As a user I want to be able to add an alarm and need a convenient thing to click to do so.

Priority: High

Cost: 1 Day

Paul Jarrow created task. Yesterday

Paul Jarrow added subtask to task Big Story: Alarms. Yesterday

Paul Jarrow assigned to XIRAN LIN. Yesterday

**Paul Jarrow** Yesterday at 5:23pm

We have decided a small clickable text below the description for each task that says "Add Alarm..." should be made available.

**As a user I want to be able to add an alarm and need a convenient thing to click to do so.**

**Priority: High**

**Cost: 1 Day**
